DOING THINGS

REACTOR SERVICES LTD IS AN
EXPERIENCED DIRT WORK AND
CONSTRUCTION COMPANY
BASED IN NORTHERN ALBERTA.
WITH OVER 15 YEARS OF
EXPERIENCE IN THE
INDUSTRY.

SPECIALISTS

THE RIGHT WAY

REACTOR SERVICES

Experts in full-scale Silviculture and site prep, Reactor Services is based in the Grande Prairie region. Understanding the geography and soil types requires a different type of preparation for your trees and vegetation to be successful. Reactor Services specializes in seven diverse types of preparation options to accommodate any conditions.

The Reactor Services team has years of experience in reclamation and remediation as well as in construction and logging. Being diverse in our industry gives Reactor Services an edge with attention to detail to minimize the environmental impacts while providing the highest level of workmanship.

Established in 2013 as a single owner operator, Reactor Services has developed an industry leading team. Utilizing the latest technology allows for the highest level of innovation in the business. In 2022, Reactor Services welcomed the partnership of Iron Pine Contracting providing an even greater range of industry solutions.

SERVICES

Offering a full range of site-prep, silviculture, reclamation, construction and everything in between. Serving Northern Alberta, we have built our reputation on efficient, cost-effective service with a second-to-none commitment to safety and the environment.

EQUIPMENT

We have a line of equipment capable of completing all work in site-prep, reclamation and silviculture. Reactor Services also has access to a full line of logging, clearing and road maintenance equipment, as well a full fleet of trucks for any hauling requirements.

SAFETY & THE ENVIRONMENT

Our commitment to safety and the environment is essential to Reactor Service's company culture. We are dedicated to keeping our employees as safe as possible, while minimizing our impact on the world around us. To this end, we ensure all rules and regulations are followed by everyone in our organization. We are proud of our record, and encourage our employees to bring up any concerns with their supervisors. Reactor Services is the industry leader in safety.

LISTENING TO THE ENVIROMENT

Having the right tools for the job, Reactor Services is the go to specialist for every type of work on any site. Years of experience, training and commitment to the environment has given Reactor Services the knowledge and skills to be the experts. Determining the right tools for the area ensures top results for the future of the environment for every site.

THE RIGHT TOOL

KNOWING THE GEOGRAPHICAL AREA INSURES THE RIGHT TOOL FOR THE RIGHT PLACE.

AHEAD OF THE CURVE

STAYING ON TOP OF INNOVATION AND TECHNOLOGY

Using the latest technology and the most innovative ideas in the market are how we access areas within some of the most extreme terrain in western Canada.

This new technology has given Reactor Services the ability to safely enter challenging terrain, increasing utilization while having a positive impact on the environment, by minimizing the footprint left during and after operations.

CUTTING EDGE EQUIPMENT

Using low impact equipment helps minimize ground disturbance. With some ingenuity and technology Reactor Services has added a 2 row moulder to double production and reduce the environmental impact by 50%.

A GPS spraying unit is essential to control noxious weeds harmful to the area, with technology that eliminates overspray.

Utilizing the latest in agricultural spraying technology and applied to forestry operations created a market leading system for vegetation control. State of the art tree planting attachment technology on an excavator allows our professionals to perform two services in one pass, leaving behind a seedling to create a sustainable forest in the area.

The health and safety of our employees is our top priority daily, in a fast paced industry we never forget the importance of conducting work in a safe manor. At Reactor Services worksite safety is not just a priority, it is a crucial element to our success. We recognize that the most valuable asset is the people and thus are committed to keeping everyone safe. We have a fully functioning Health and Safety Program. Our superior safety policies and procedures translate into a safe work attitude helping to achieve our Zero Incident goal.

As an innovative company, all our field and office personnel including management, are continually being internally and externally trained. We ensure all required personal safety courses and tickets are kept up to date. At Reactor Services we are focused on getting our people home SAFELY every shift, every day.

Stewards for the Environment

At Reactor we strongly believe in our commitment to be leaders in Environmental Stewardship. Our team takes every measure to identify sustainable practices on all job sites are being met to minimize our collective impact on the environment. Our employees are trained in applicable practices including spill prevention, waste management and fuel management, to ensure our projects are constructed responsibly. Our Environmental Management Plan continues to be updated to stay ahead of the changing environmental laws and regulations in Canada.
